

KONDURU SUMANTH VARMA

.NET Full Stack Developer

📞 +91 8688559912 ✉️ sumanthk458@gmail.com 💼 [Sumanth - linkedin](#) 🐙 [GitHub](#) 🌐 [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack .NET Developer with 2 years of experience building scalable web applications using .NET Core, C#, and Oracle. Specialized in microservices architecture, performance optimization, and cloud deployment on Azure. Delivered real-time analytics systems and enterprise security frameworks while working with cross-functional teams. Focused on clean code, design patterns, and agile development methodologies.

TECHNICAL SKILLS

Languages: C, C++, C#, Java, JavaScript, HTML5, CSS3

Frameworks & Libraries: ASP.NET Core, ASP.NET MVC, Entity Framework, LINQ, React.js, Deck.GL

Databases & Caching: Oracle, MySQL, PostgreSQL, SQL Server, PL/SQL, Redis

DevOps & Tools: Visual Studio, Git, Postman, Azure DevOps, CI/CD Pipelines, Apache NiFi

AI Tools: ChatGPT, Claude, Cursor, GitHub Copilot, NotebookLM, Gemini

Architecture & Design: System Design, Microservices, RabbitMQ, SMTP, JWT Authentication, Design Patterns, SOLID Principles, OOP, Multithreading, Concurrency

Methodologies: Agile/Scrum, SDLC, Test-Driven Development, Code Reviews

WORK EXPERIENCE

Jio Platforms Limited

Oct 2023 - Present

Software Development Engineer II

Navi Mumbai, India

- Refactored high-volume **C#** data automation pipeline using multithreading and concurrency, boosting throughput from **9 to 520 records/sec** while ensuring reliability through comprehensive testing.
- Built **.NET Core** microservice processing **500K+** daily user events (IP tracking, module actions, audit logs) with **50%** higher audit accuracy, powering **RESTful analytics APIs** across **20+ modules**.
- Developed **3D geospatial visualization platform** using **Deck.GL/WebGL** on Google Maps, reducing tile mapping response time by **64% (1.4s → 504ms)** through custom **Node.js-based** grid GeoJSON server architecture.
- Developed secure **.NET Core Web API** backend for **FiberInsights**, integrating **JWT token authentication** and role-based access control across **8+ API endpoints** to ensure data privacy and security.
- Designed secure **.NET Console** application managing **200+ Oracle DB** connections across **5 environments** with JSON configurations and **AES-256 encryption**, integrated **Serilog** for monitoring **10K+ daily events**.
- Improved map distance calculation scheduler for **10K+ geo-points** per claim using recursive algorithms and binary search, delivering **40% faster** compute performance.
- Designed interactive **KPI dashboard** for **Jio Beat Planner** and **Jio Pulse** using **.NET, Oracle**, and **React.js**, serving **500K users** with **30% better** reporting efficiency through API-driven architecture.
- Deployed **Redis-based cache scheduler** for Jio Beat Planner (**100K daily active users**), accelerating data fetch by **25%** and cutting backend response time by **30%** via **RESTful** services.
- Tuned **Oracle Database** performance on **50M+ row datasets** with advanced partitioning strategies and composite indexing, delivering **40% faster** queries and **30% less** maintenance overhead.
- Implemented custom **.NET Core authorization filter** framework securing **30+ modules** with role-based access control for **100+ roles** and **5M daily users**, maintaining **100% security compliance** with zero unauthorized access.
- Partnered with QA and DevOps teams to automate **CI/CD pipelines** on Azure Cloud, enabling continuous deployment and cutting release cycle time by **40%**.

EDUCATION

College of Engineering Guindy, Anna University

2019 - 2023

Bachelor of Engineering in Computer Science and Engineering (CGPA: 8.39/10.0)

Chennai, India

- Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming, Software Engineering, Cryptography & Network Security.
